During that hot wave, just passed over, we thought many times our town should be better supplied with good parks and better drinking water, and it should be. But, come to think in this respect, we are better off in this line of comforts than any of our sister cities. We have good shady parks, well supplied with comfortable seats, where everybody is welcome to go, with good drinkng water all over the town in public places. Galli. polis has a very pretty park but no good drinking water. Pomeroy and Middleport have neither. Charleston has a park or two, but the absence of seats is notable while "keep off the grass" is most conspicuously posted. And this the capitol city of our State.
